UNIVERSITY OF ARKANSAS MEDICAL CENTER

**CADUCEUS
1972**

Foreward

The Caduceus has been the yearly historical record of the Center for many years. The symbol itself, pictured at left in the arm of Aesclepius, is a staff about which is entwined the serpent, the symbol of healing. Some say the serpent takes on its symbolism by its longevity; other, because the annual renewal of its skin suggests the renewal of youth and health; still others suggest the keen sight of the serpent. On the cover you find the symbol.

We are proud to present the Caduceus as a pictorial record of 1971-1972. The book was made possible through the combined efforts of many individuals and in spite of the efforts of a few. Hopefully the book is representative of all who live and work here. The Editors wish to thank all who contributed their time and support in making the 1972 Caduceus a success. Our special thanks to Mr. Tom Walker of the Hurley Company for his patience and understanding.

1972 Caduceus Dedication

The 1972 Caduceus is dedicated to two physician-teachers who, both academically and personally, have served as an inspiration to medical students with their enthusiasm for and dedication to the Art of Medicine.

Doctor Owen Beard
Professor of Medicine

Doctor Alice Beard
Professor of Pediatrics

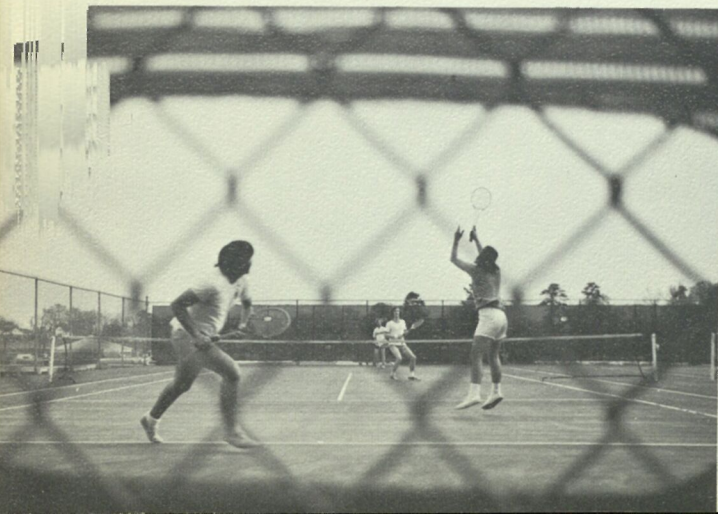

This is the Place . . .

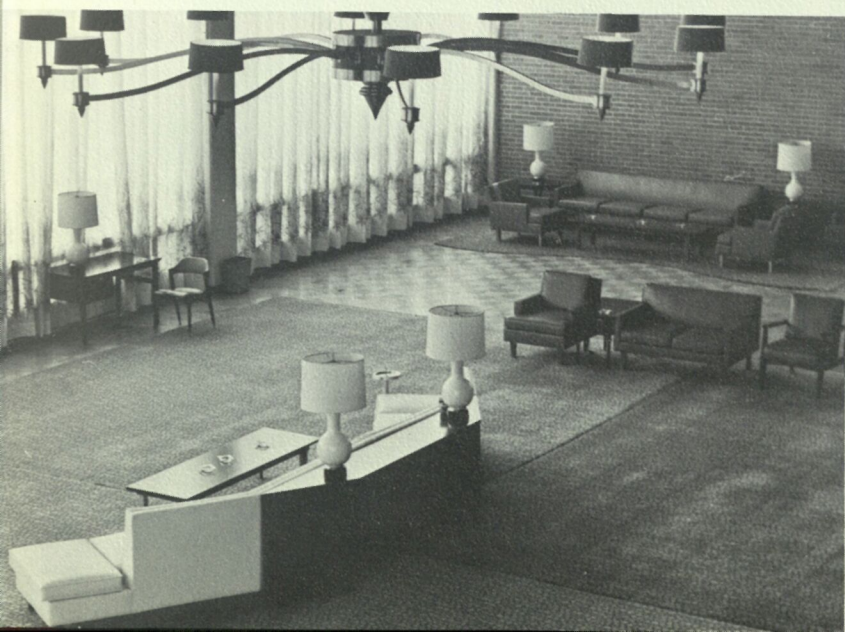

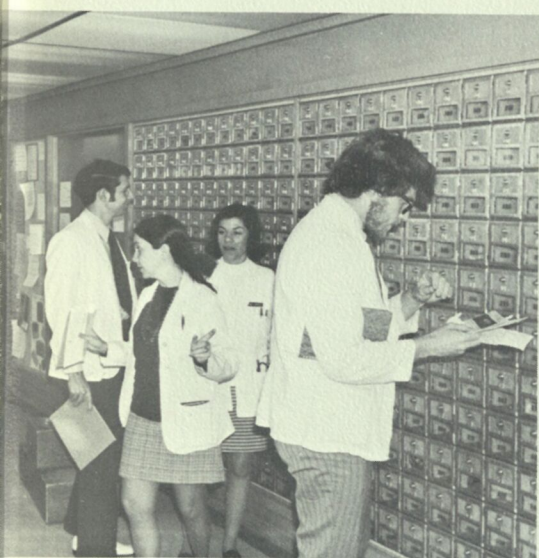

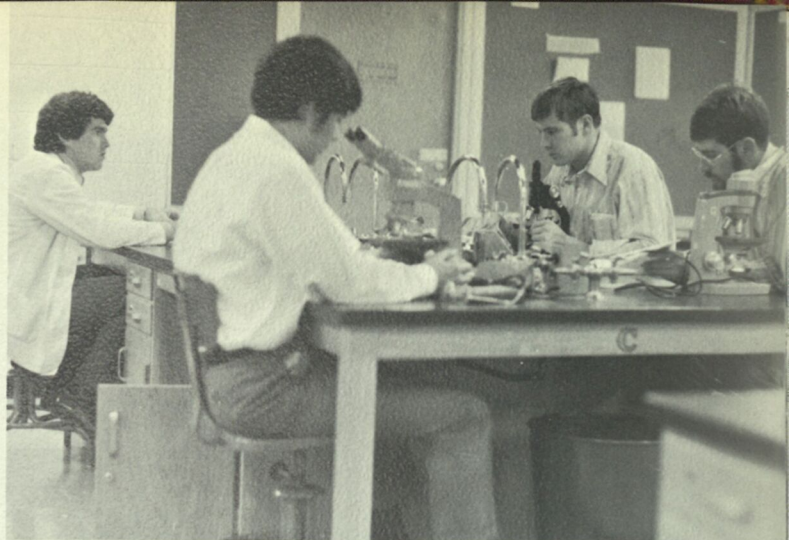

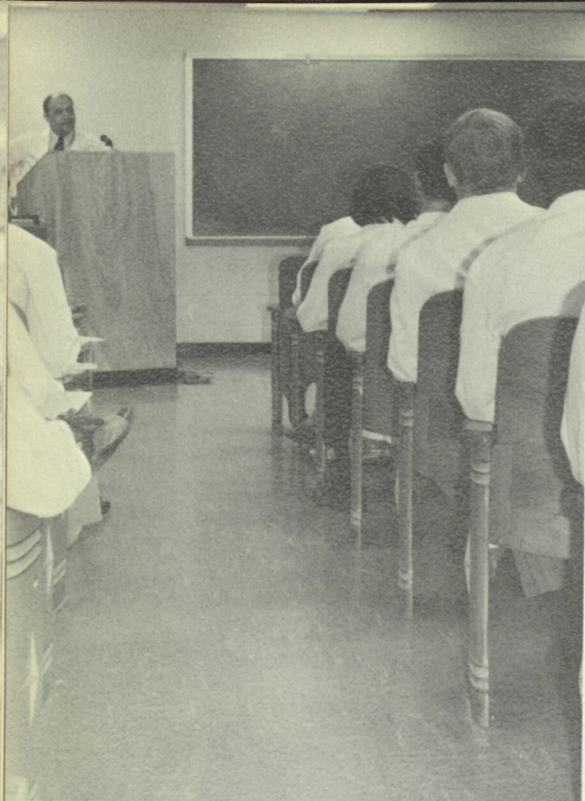

. . . Often a place of mystery to those who come here for help and perhaps awesome to those yet seeking admission to study here, to those who live and work here the Medical Center is a way of life. It is a living, growing institution with a personality forever changing as the student grows to meet its challenge. To Seniors it has been home for four long years . . .

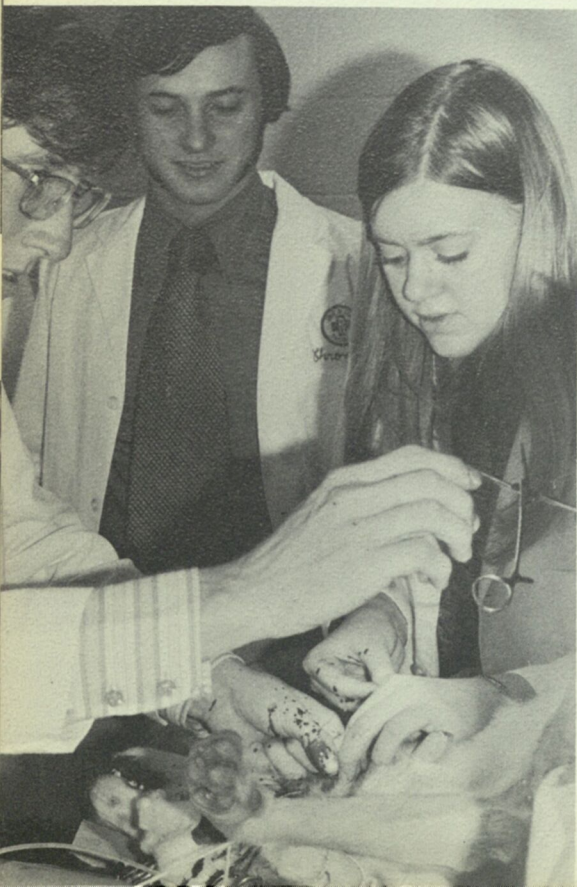

A Place to Live . . .

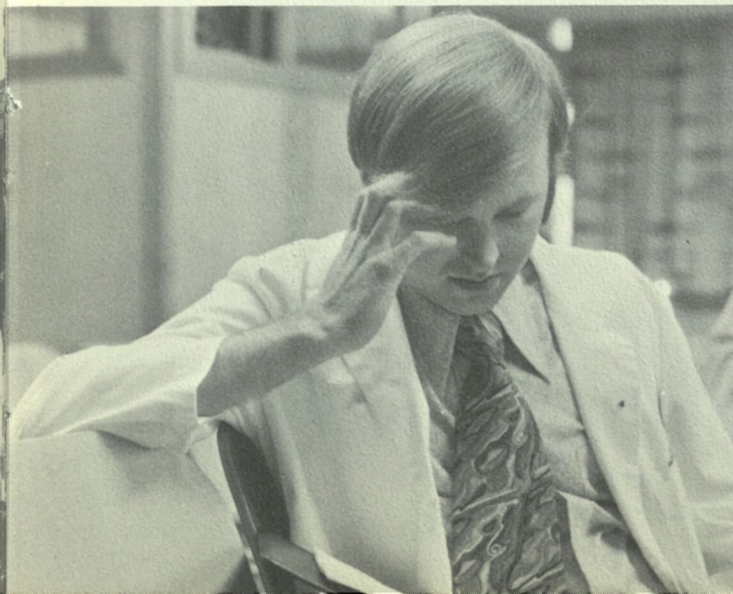

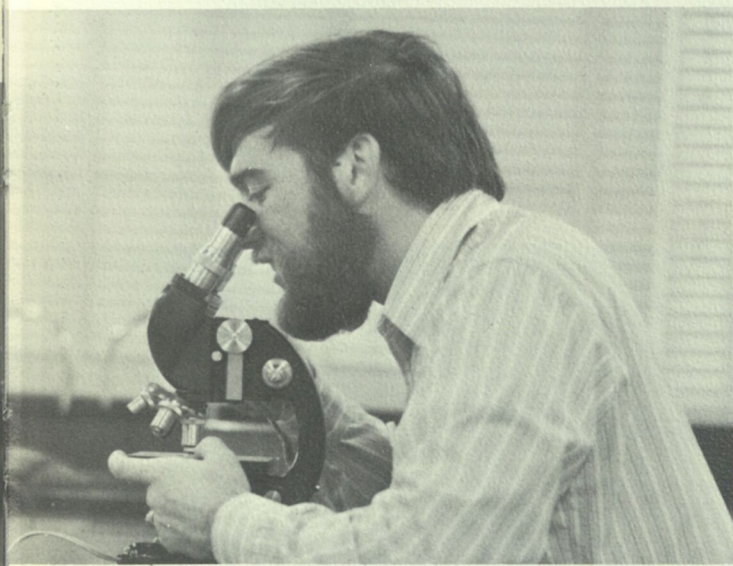

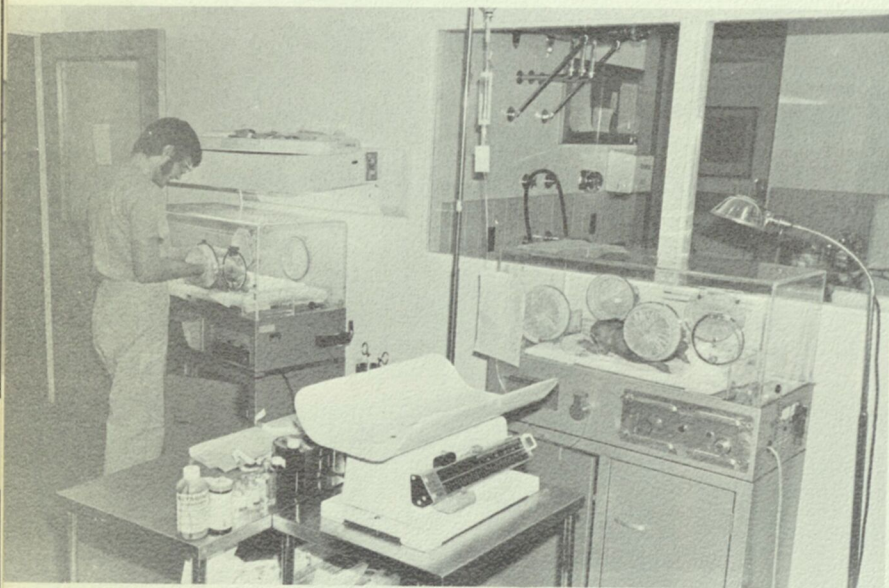

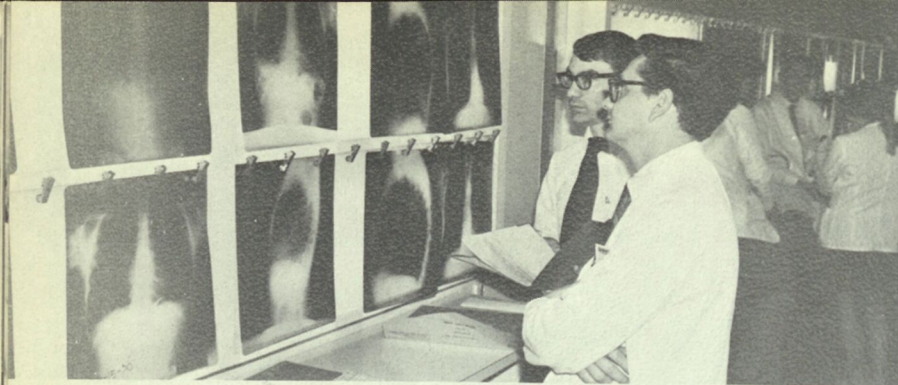

A Place to Study . . .

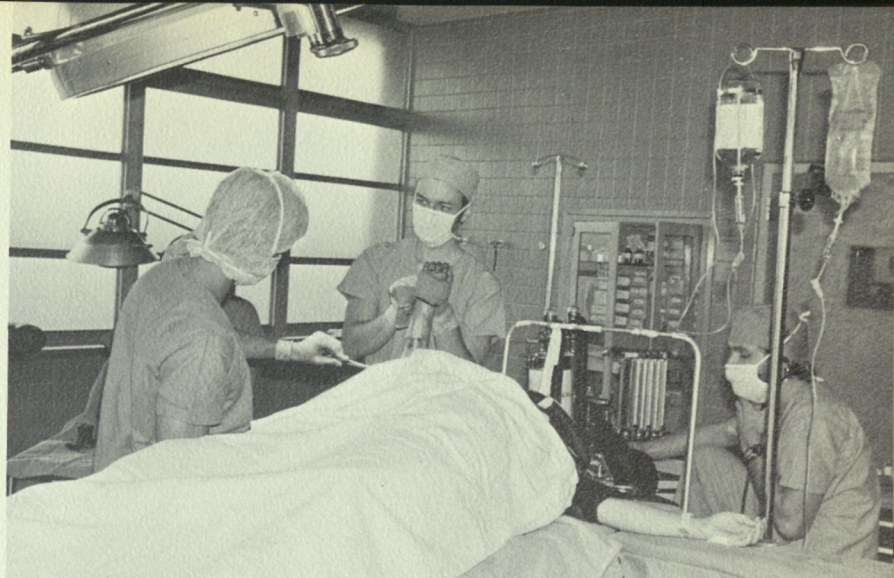

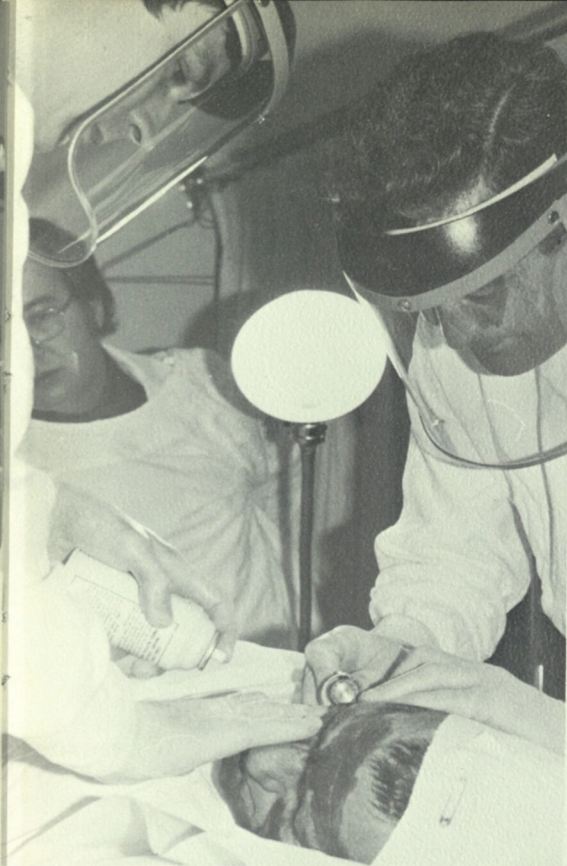

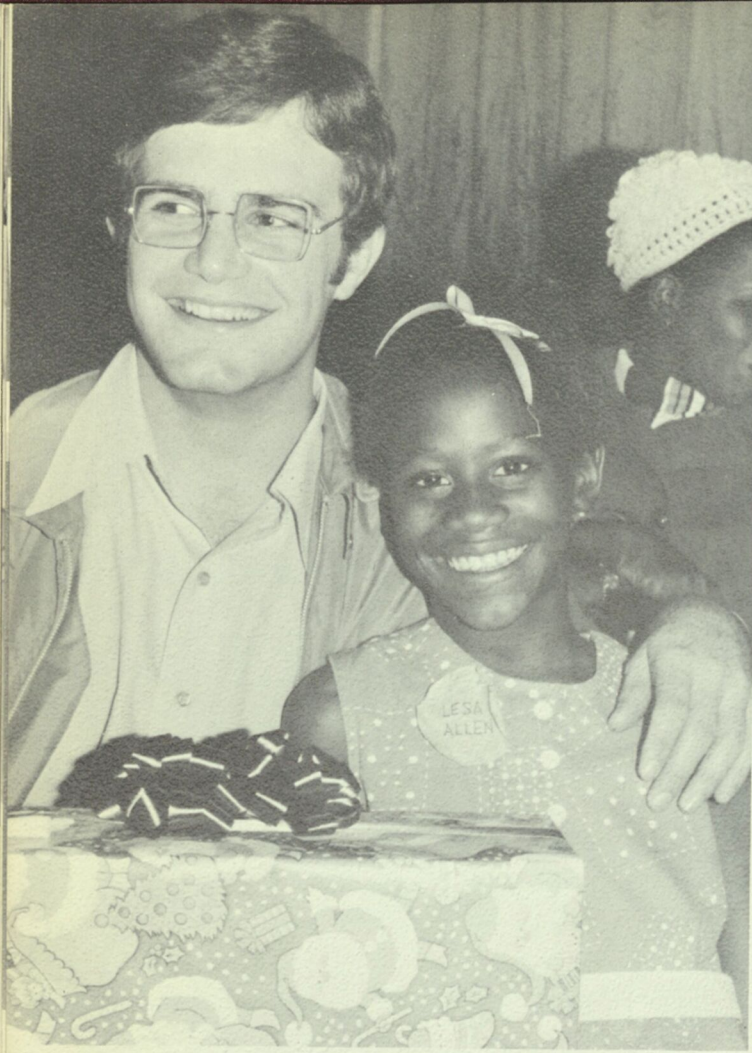

A Place To Work

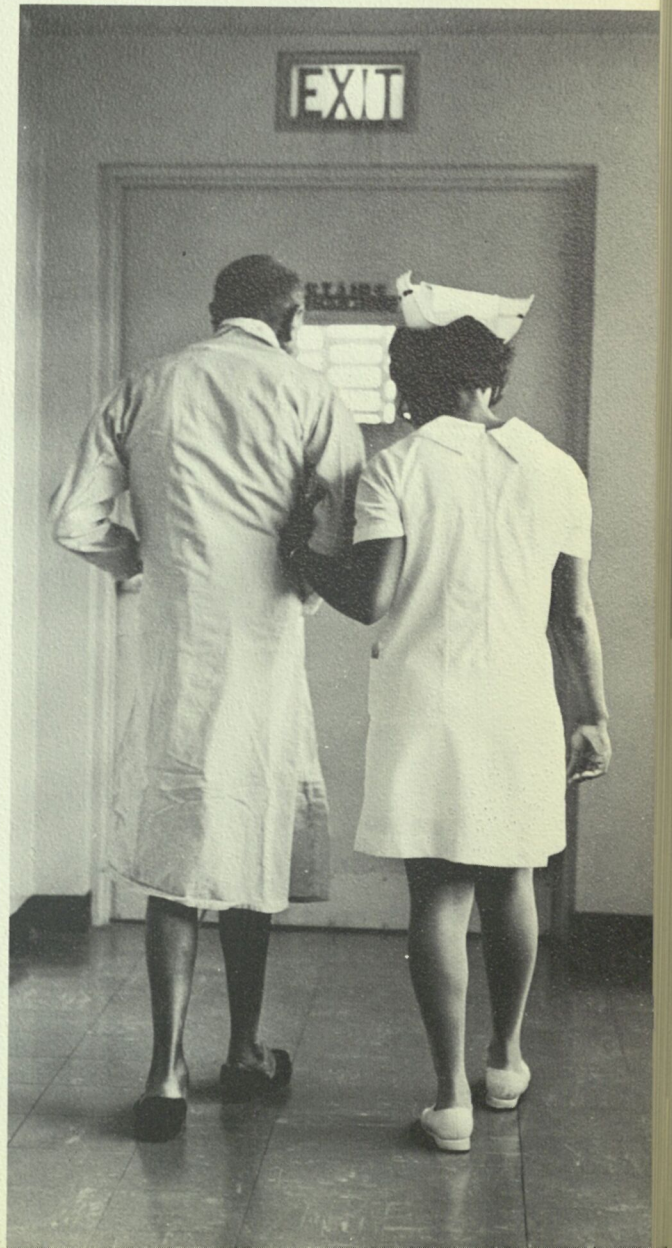

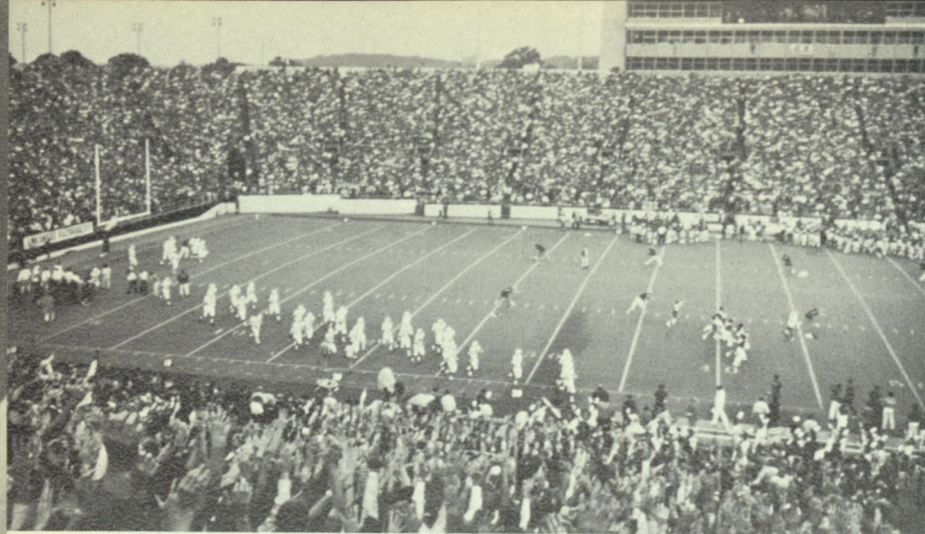

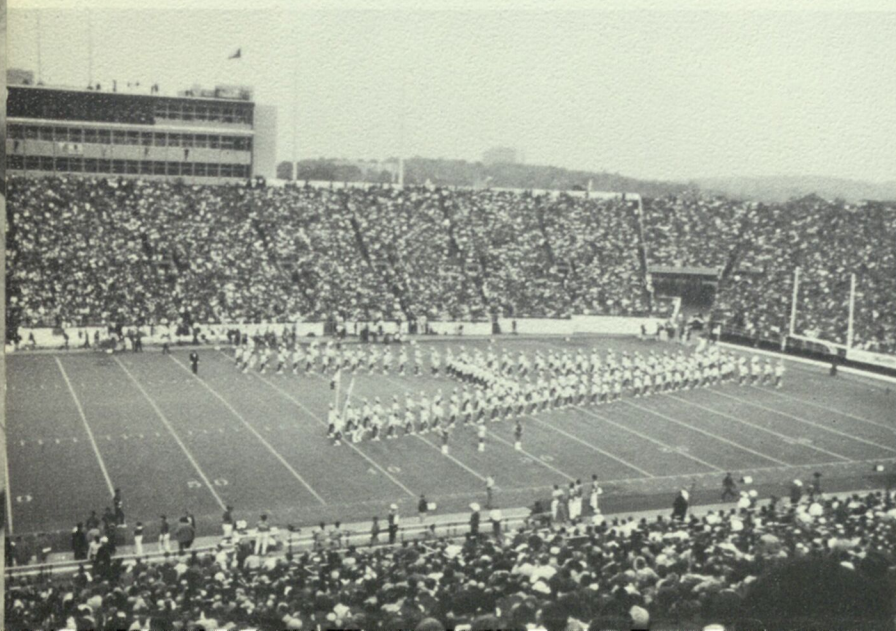

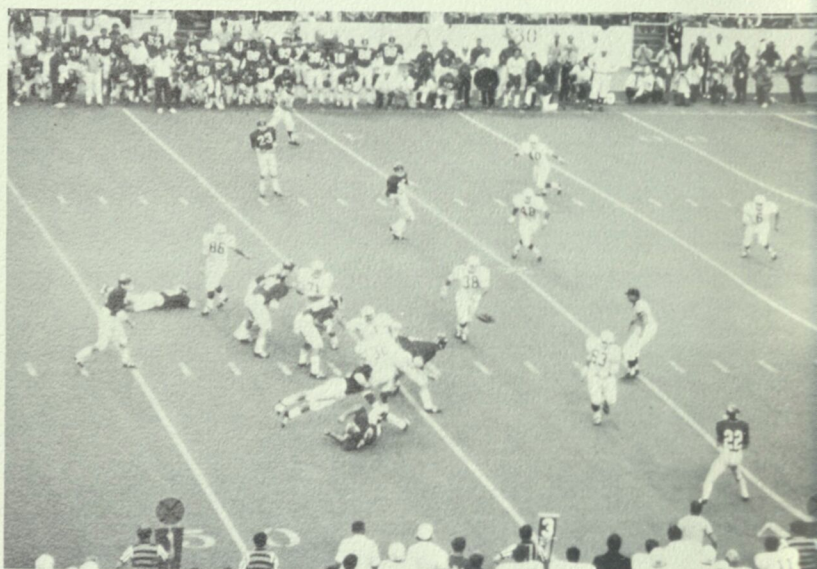

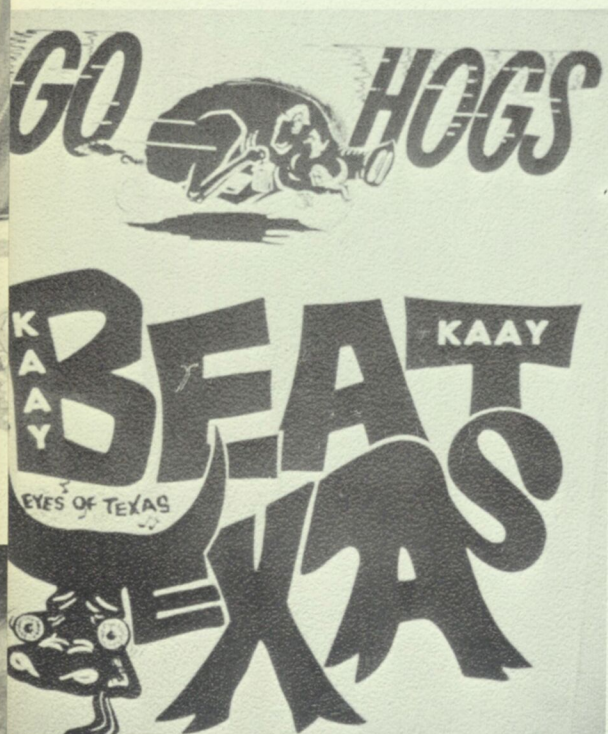

A Place to Serve . . .

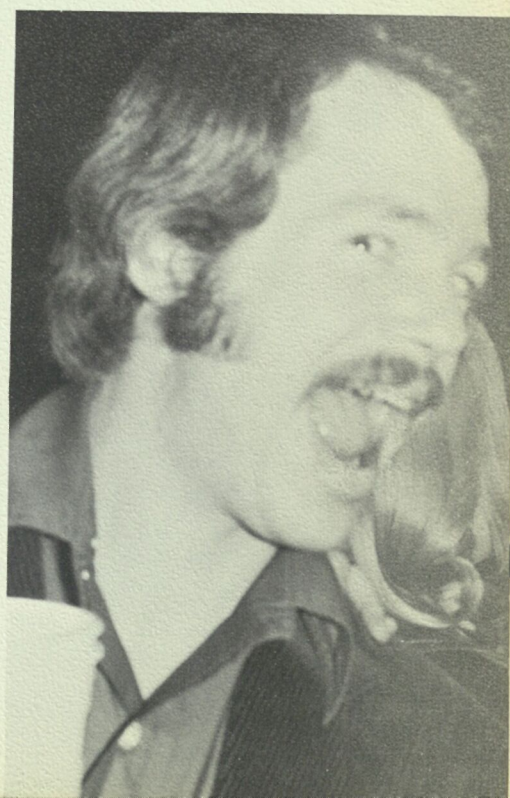

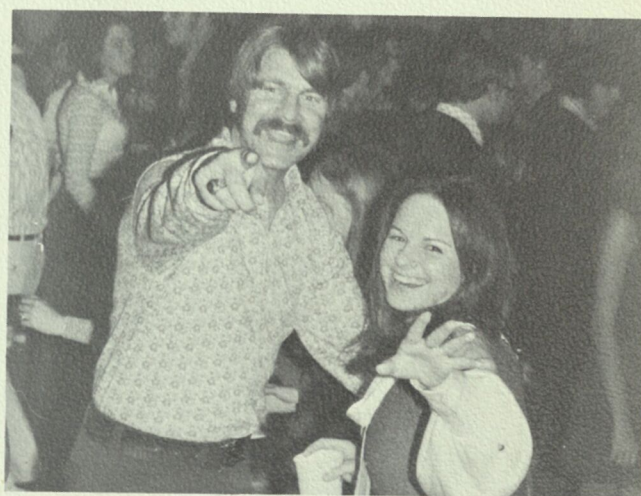

A Place
to Unwind . . .

A Place to Avoid . . .

A Place to Remember . . .

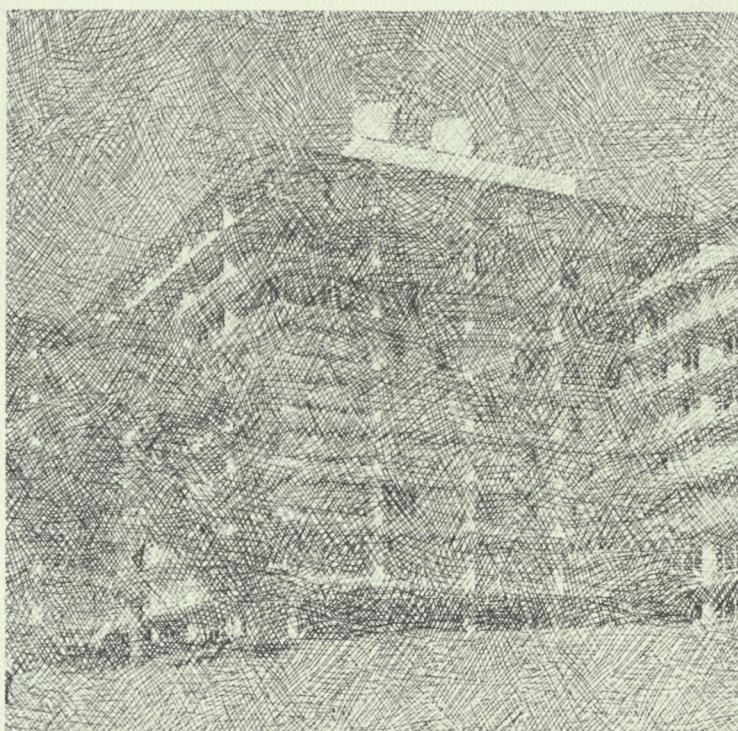

But No Place to Park

GOLDEN APPLE AWARDS

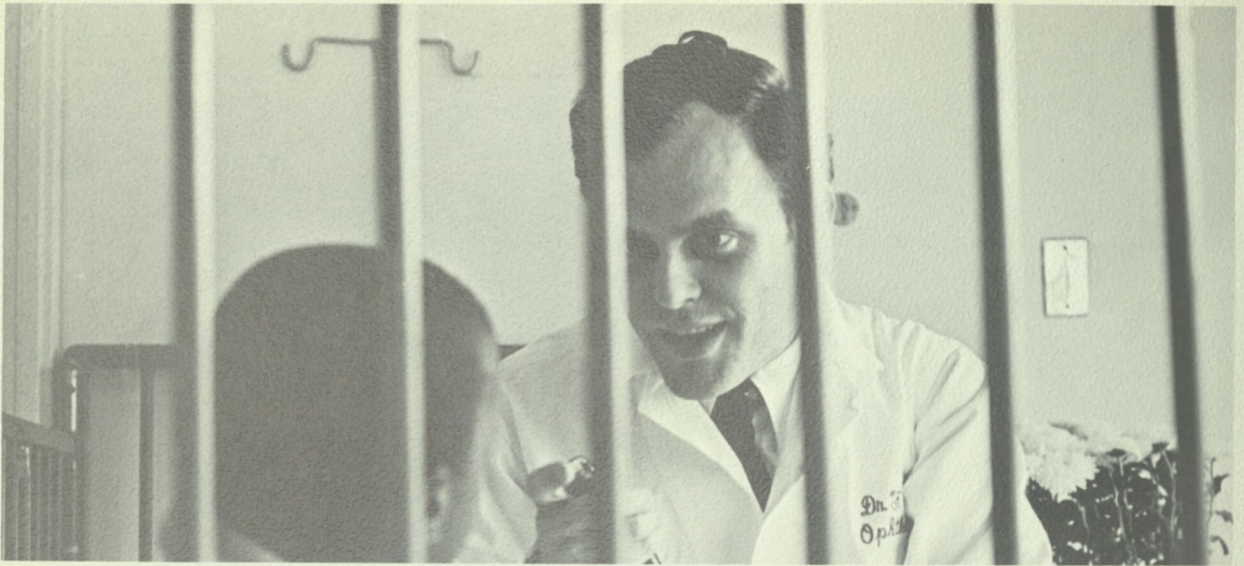

Spring 1971

The Golden Apple Awards are presented each Spring through election by the Student Body of the School of Medicine. Two instructors are selected yearly for this honor which is the student's way of saying "Thanks for your interest in us, your clarity in presentation, and your fairness in grading". Dr. Flacke was selected by Freshman and Sophomore students for excellence in the pre-clinical area. Dr. Dodd was elected by Juniors and Seniors for interest shown toward students in the Clinical years.

Doyne Dodd, Jr., M.D.
Assistant Professor
Department of Radiology

Dr. Werner Flacke
Professor and Chairman
Department of Pharmacology

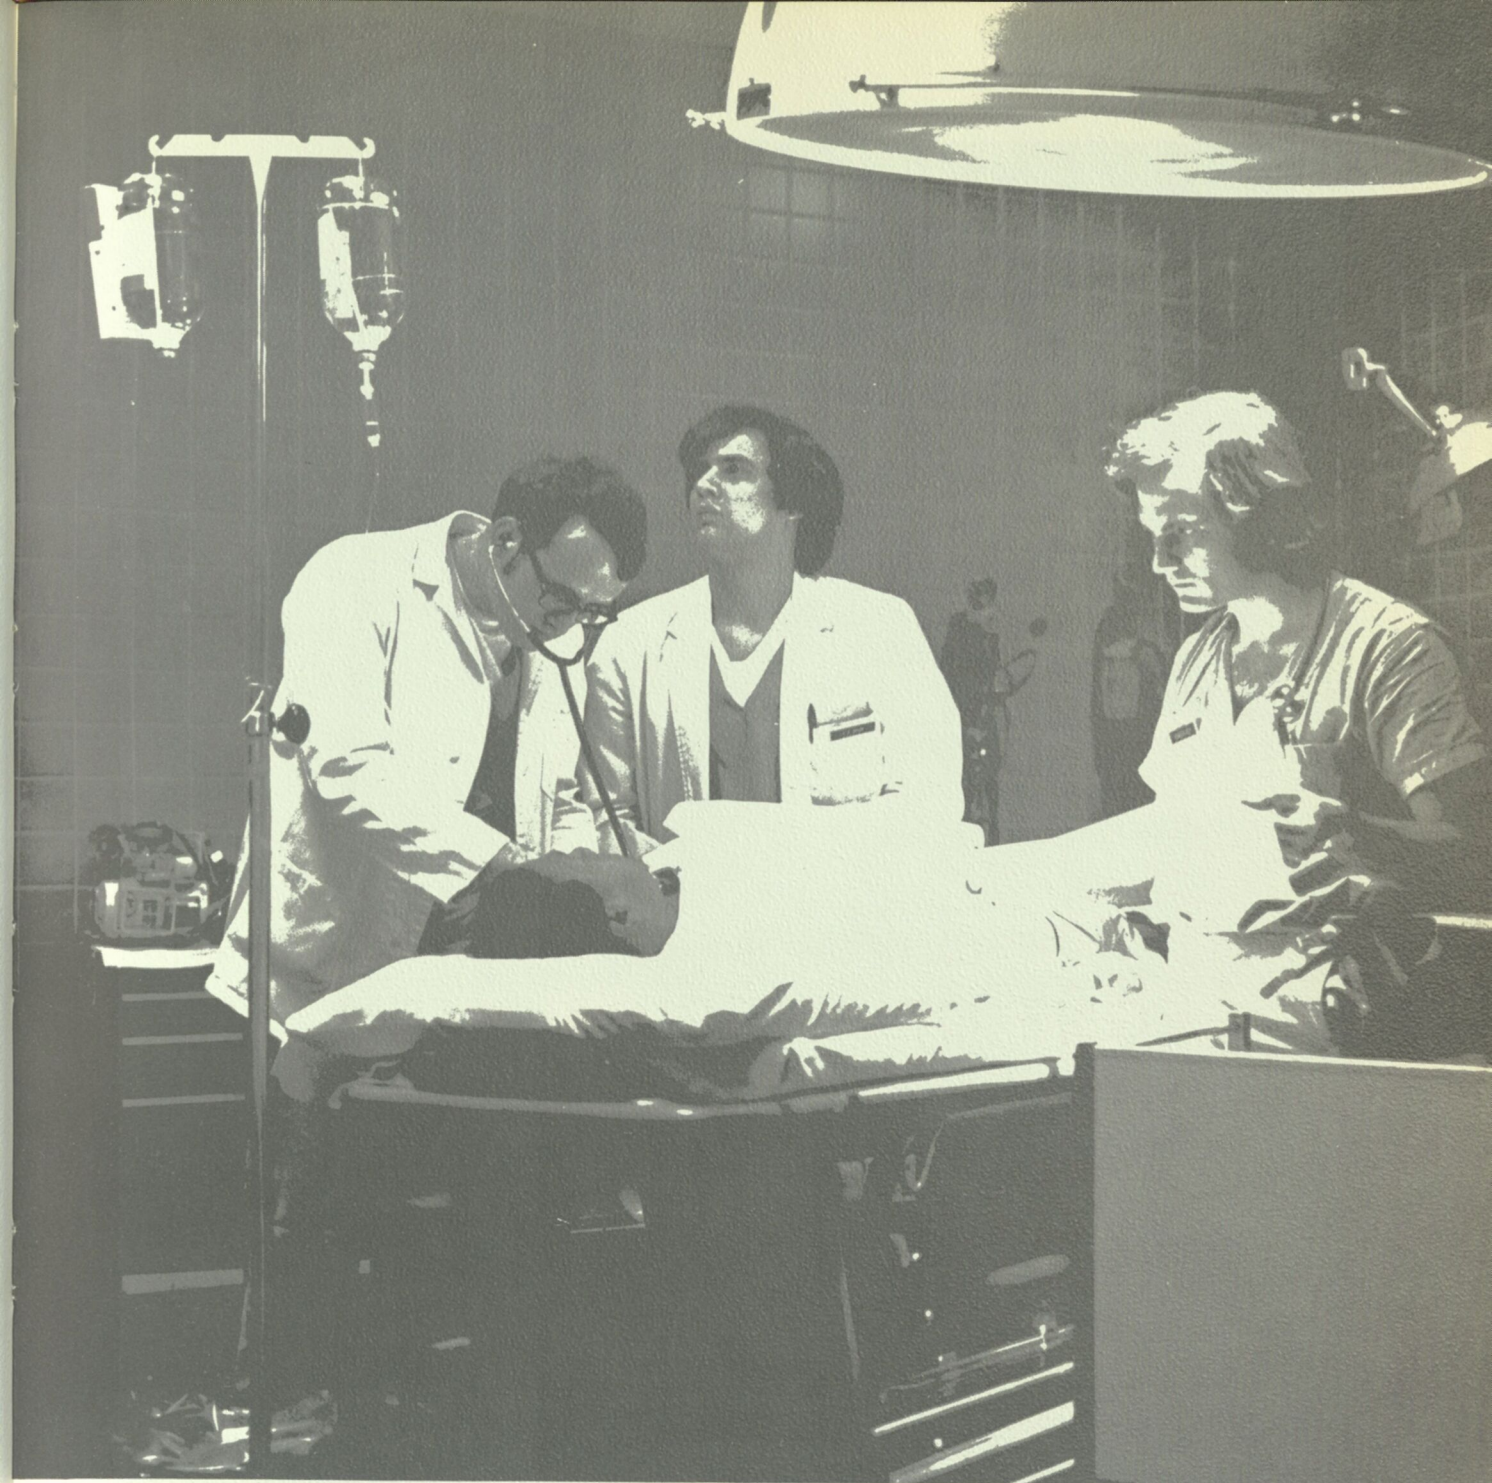

Dr. F. Hampton Roy
Asst. Professor of Ophthalmology

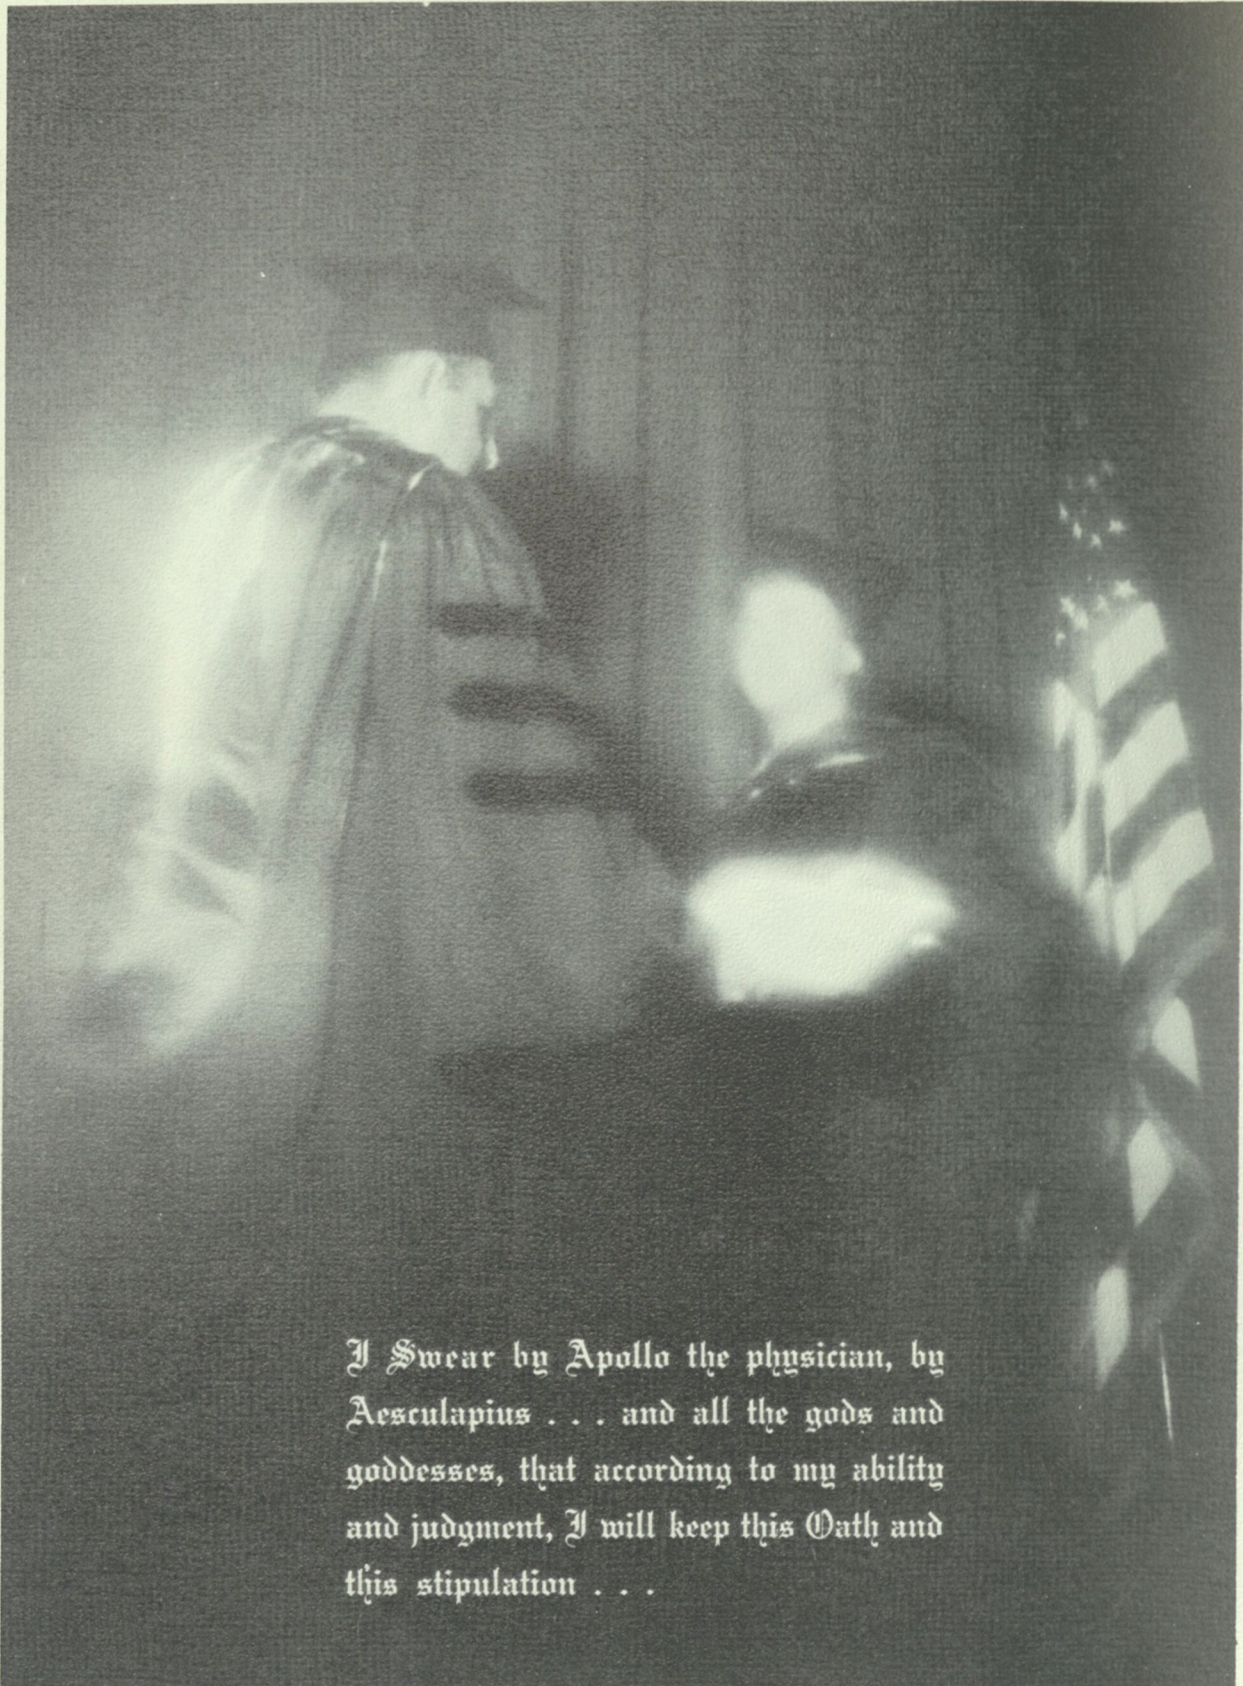

Selected by the United States Jaycees

ONE OF AMERICA'S TEN OUTSTANDING YOUNG MEN

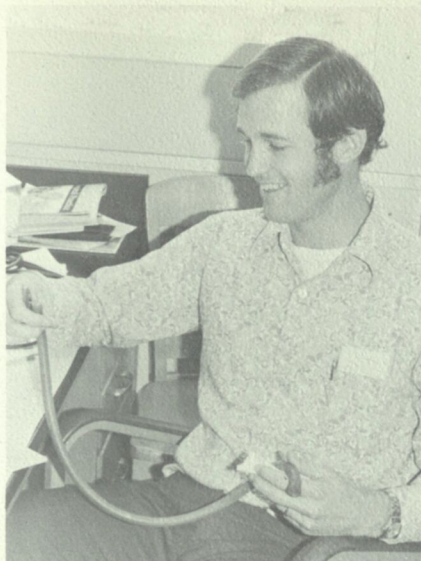

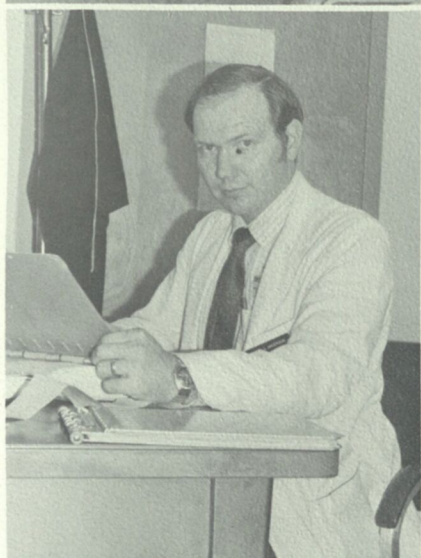

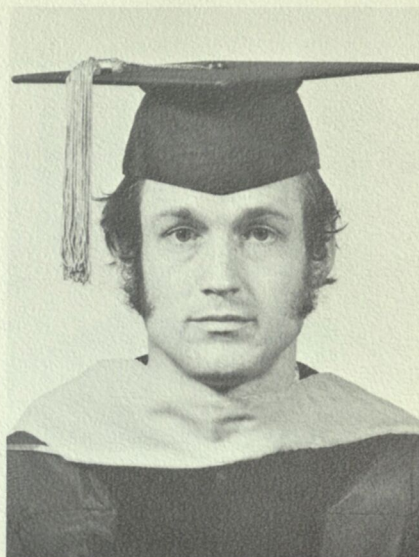

SENIORS

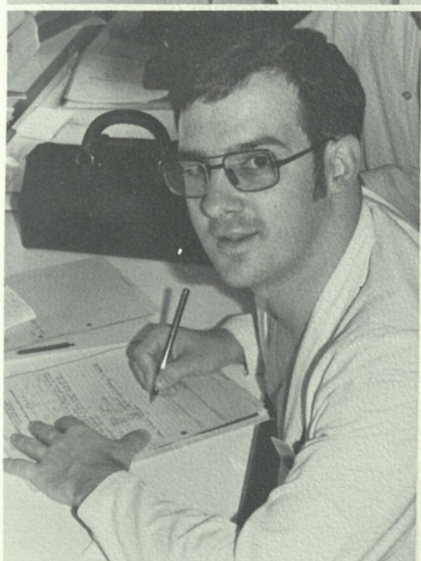

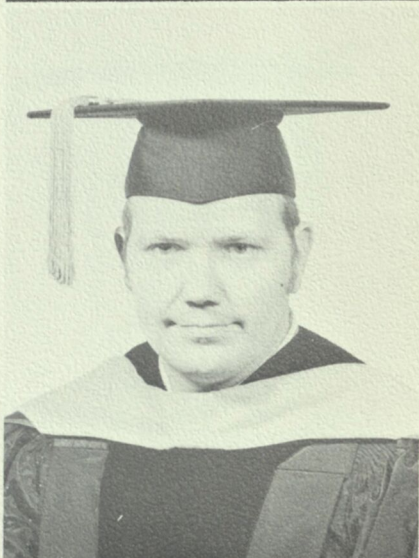

I Swear by Apollo the physician, by
Aesculapius . . . and all the gods and
goddesses, that according to my ability
and judgment, I will keep this Oath and
this stipulation . . .

THE TABLES TURNED

Up! up! my friend and quit your books;
Or surely you'll grow double:
Up! up! my friend, and clear your looks;
Why all this toil and trouble?

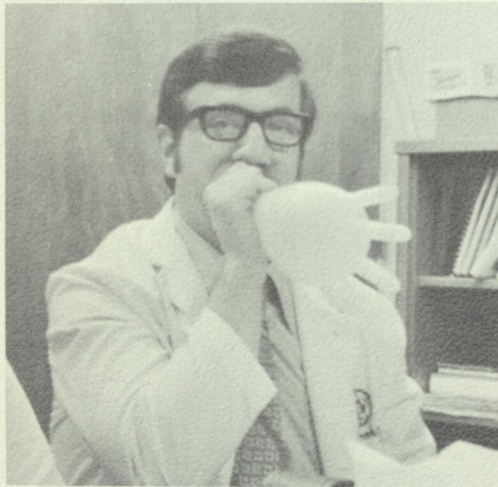

One impulse from a vernal wood
May teach you more of man
Of moral evil and of good,
Than all the sages can.

Enough of Science and of Art;
Close up those barren leaves;
Come forth, and bring with you a heart
That watches and receives.

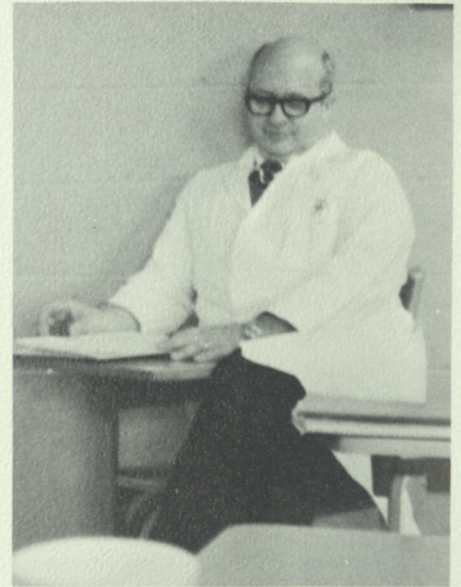

—William Wordsworth—

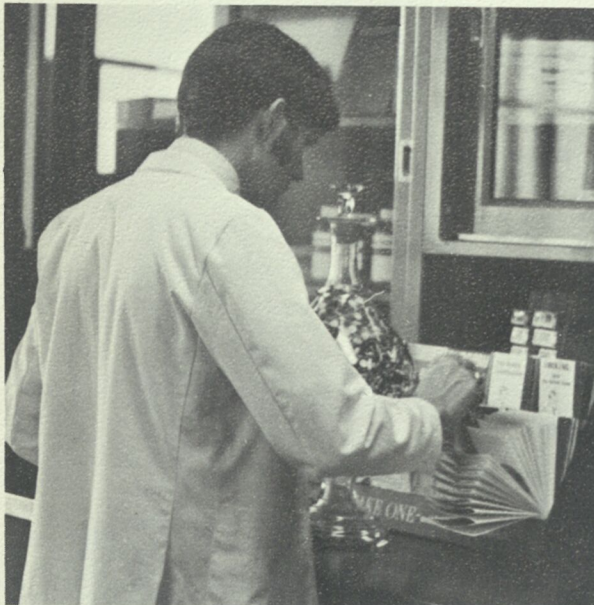

Just think—enough hot air, and he'll be promoted to Ass. Professor.

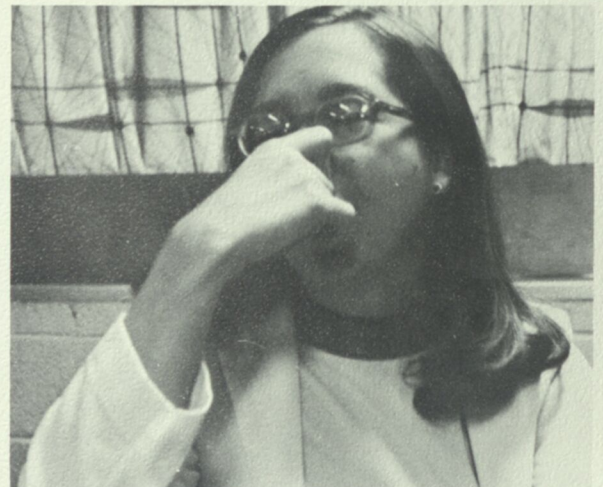

This Seminar is utterly ridiculous.

Purrrrr . . .

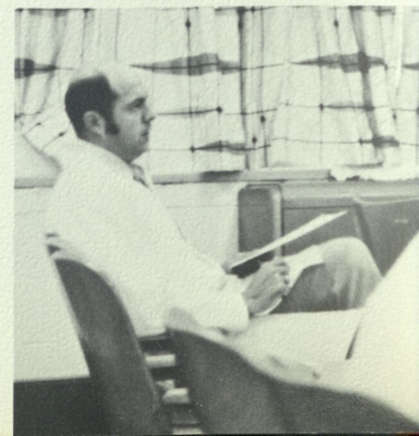

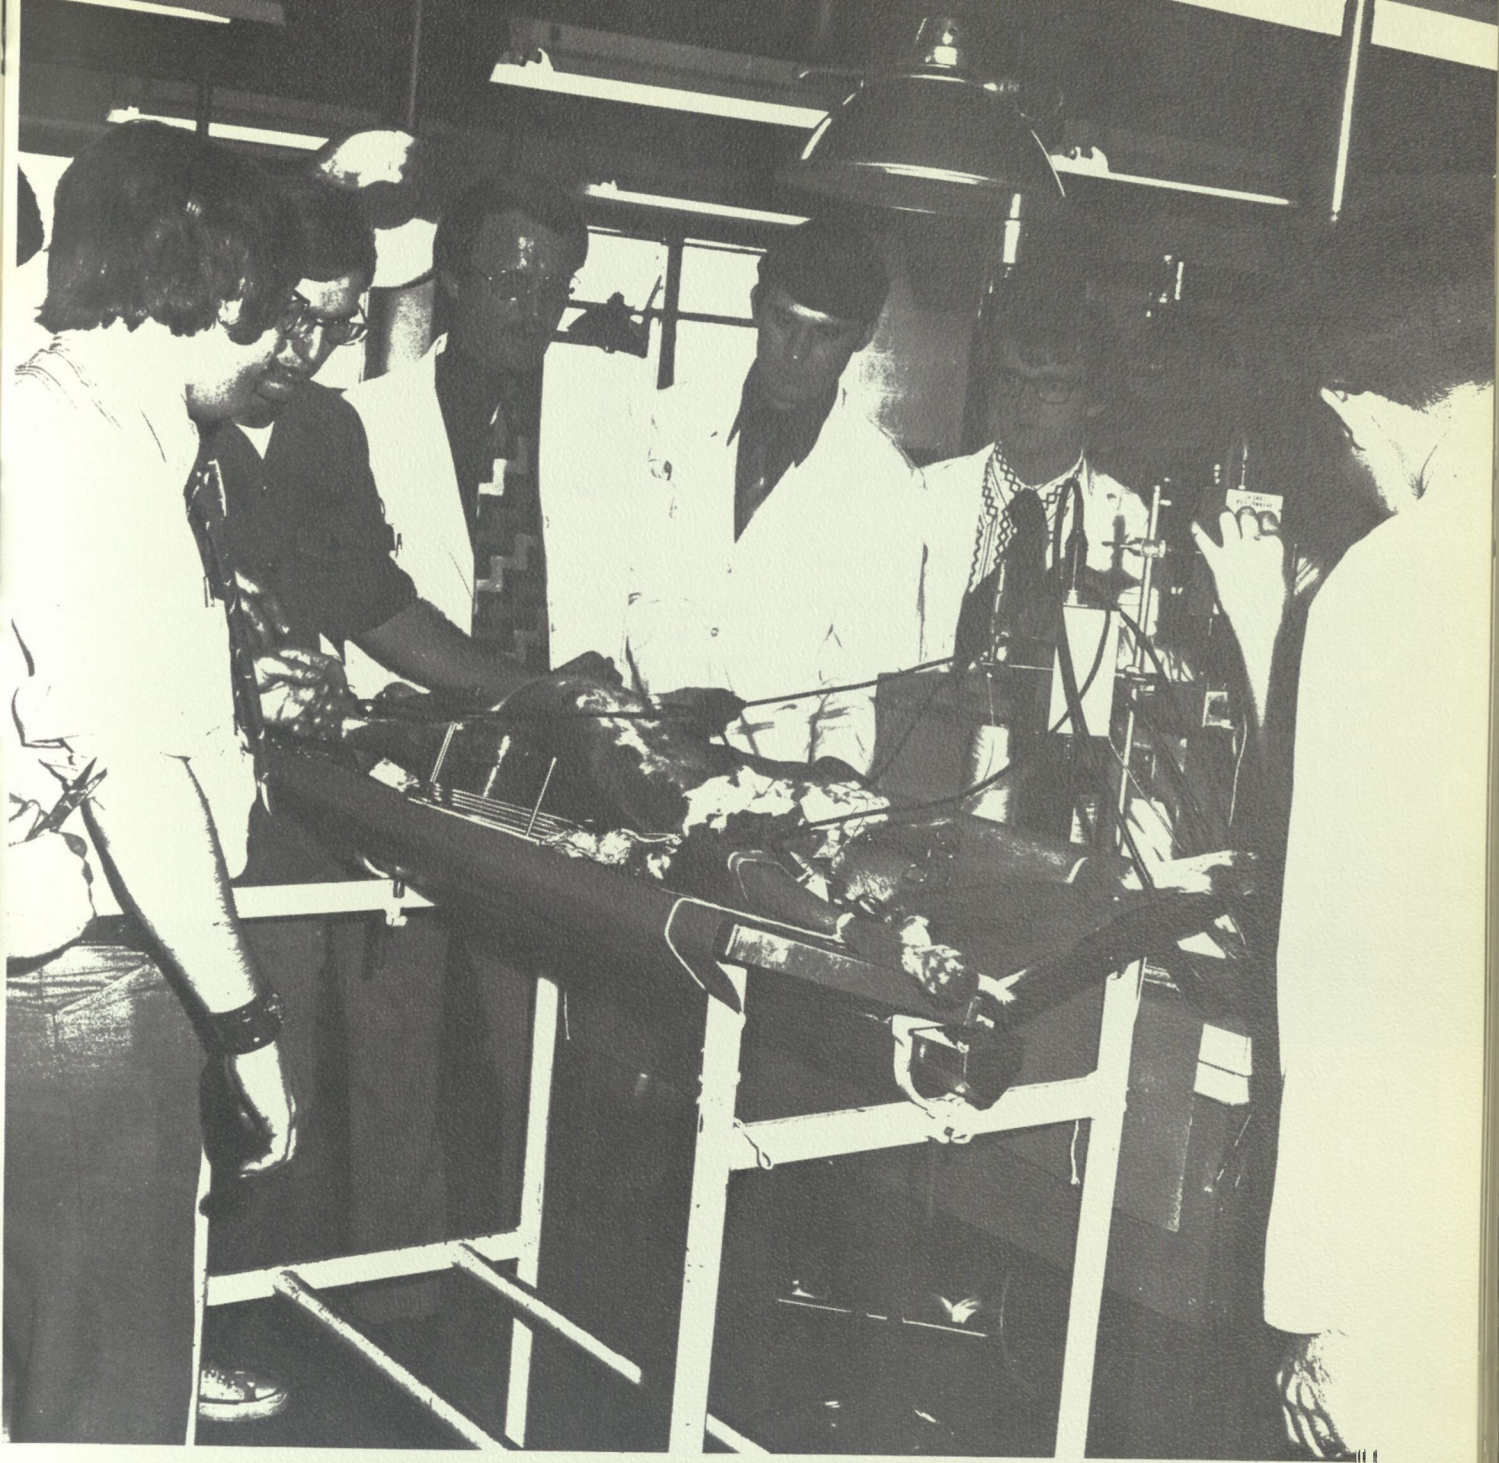

Never pass up anything free!

This course really stinks!!

O.K., Allen why don't we know anything about how it works?

Nursing is music to my ears.

What you see is what you get!

I can't believe I'm going to eat the whole thing.

The only chance for Davey to make a pass at us.

The public's health wasn't considered when they gave us this room to use.

Try it—you'll like it.

Who says we don't have a close student-teacher relationship?

Pharmacy and nursing get together to experiment with medication cards.

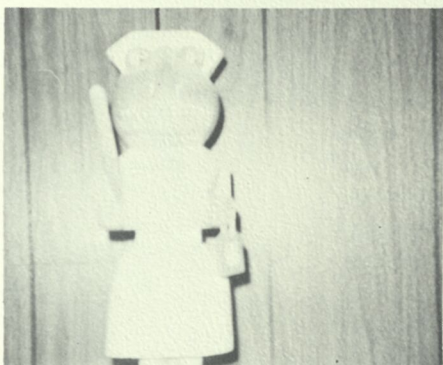

Just foleying around—and by the way, what's your major anyway?

Who would think Middlebrook capable of running down poor white trash?

Typical seniors—always getting their hands into something.

A team leader.

All seniors at the Medical Center get hard up.

Jump back Loretta!

Why don't you come up and see me some time? If not you'll get over it.

Nursing behind the scenes.

N.S.A. is the nursing students' association on the campus at the Univ. of Ark. Med. Center, designed to involve its member in the pre-professional organization of the nursing student. Any student enrolled in a state-approved program for the preparation of registered nurses is eligible for membership in the N.S.A. The service project for the organization has been to work with the babies at the Kramer School. Some of the money-making projects have been candy-selling and car washes. The money will be used to send several students to the Nat'l Convention in Detroit, Mich. this spring.

A.S.N.S.A.

The U. of A. Nursing students take an active part in their state organization. In working with other nursing students, two yearly activities are planned. First, a fall workshop is conducted enlightening the student on new trends in nursing. Second, a spring convention is held which entails various business activities, as well as guest speakers.

GRADUATE SCHOOL

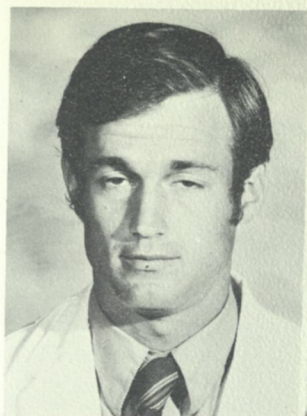

Doctor Carl E. Duffy and his secretary, Mrs. Weise. Together they are instrumental in turning out young men and women with advanced degrees.

The responsibility of a graduate school is the training of professional scientists in order to perpetuate the future development of medical knowledge. This is an integral part of the Medical Center's service to the community. The graduate students presented on the following pages work in the departments of Anatomy, Biochemistry, Biometry, Microbiology, Physiology, Pharmacology, Pharmacy, and Radiology. They teach, study, and are involved in research in an effort to further expand the scientific understanding of man and his health.

Tulsa Medical Education Foundation, Inc. The Total Teaching Team

TULSA . . . where the professional personnel, facilities and resources of major hospitals and related institutions are combined into a complete post-graduate learning experience, drawing from —

- Over 60,000 admissions annually
- Over 60,000 emergency room visits annually
- Over 50,000 outpatient visits annually

INTERNSHIP PROGRAMS continue to be individually based at Tulsa's three major general hospitals—Hillcrest Medical Center, Saint Francis Hospital and St. John's Hospital. Basic four-month commitment in internal medicine is fulfilled at the parent institution. Rotations at the other two hospitals are then offered as electives if this furthers career development of the intern.

RESIDENCY PROGRAMS are all directly affiliated with the University of Oklahoma Health Sciences Center and are Tulsa-wide in scope. The three major general hospitals offer combined appointments for graduates as straight intern/first-year residents. These are filled through the national matching plan.

Traditional first-year residency programs are available to physicians who have completed an internship.

Joint residencies available in:

Internal Medicine	Pediatrics
Surgery	Obstetrics & Gynecology

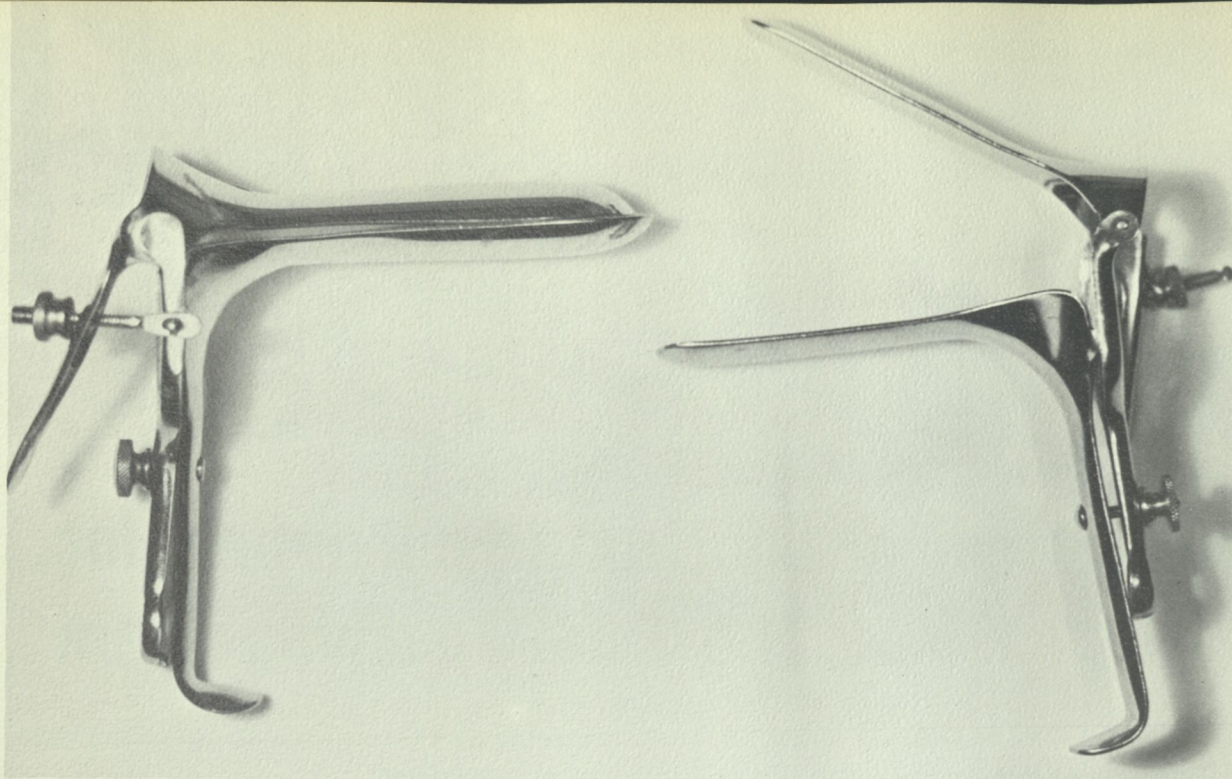

Also available:

Pathology residencies at both
Hillcrest Medical Center and
St. John's Hospital

Children's Medical Center offers its facilities as an added learning experience to those pursuing residencies in pediatrics.

Hospital-based specialists and subspecialists play a major role in teaching. Clinical laboratories in many subspecialties are unexcelled. Ample opportunities for clinical research, complete with effective supervision, are available.

The Tulsa Medical Education Foundation, Inc., has been established as a central administrative office to coordinate internship, residency and medical students' programs in Tulsa. Write for your brochure describing each program in detail and other educational advantages offered by Tulsa.

PROGRAM

A strong teaching program is offered by The Medical Center with paramount clinical responsibility under the direction of a Director of Medical Education and full-time chiefs of the four major services. Since the Medical Center is the only comprehensive medical complex in the area, it constantly receives referrals of cases which command more than ordinary attention.

House staff members are encouraged to participate in medical seminars and meetings on the state and national levels and are included in all functions of the Muscogee County Medical Society, both professional and social.

STIPENDS

Monthly stipends for house officers are: Interns, \$800; 1st Year Residents, \$850; 2nd Year Residents, \$900. House staff members schedule two weeks annual vacation.

PHYSICIANS & DENTISTS LOAN PROGRAM

available exclusively from
Twin City Bank

THE SOLUTION TO A LOT OF PROBLEMS WHEN YOU'RE JUST GETTING STARTED

TCB PHYSICIANS & DENTISTS LOAN PROGRAM

What is it? This TCB Loan Program is a method of borrowing the capital a physician or dentist needs to establish his practice. Any physician or dentist practicing in Pulaski County may take advantage of this unique financial service.

What are the terms? You may borrow up to \$5,000 on your signature with up to three years for repayment.

Loans for more than \$5,000 may require the pledge of collateral. If collateral is required, your assets remain intact and in your name, while the monthly payments liquidate the loan. Loans supported by collateral may also be protected by Creditor's Life Insurance.

IMPORTANT FEATURE:

You may elect to delay the first payment until 6 months after the date of the note. This can be an important consideration in your early months of practice when income may be small.

IDS® offers you a choice of six mutual funds. Each with a different investment objective.

To help meet your financial goals, IDS offers you six mutual funds with six different objectives. Currently you have the privilege of transferring from one fund to another without additional charge.*

Please send me free prospectuses (information booklets) on the funds checked below:

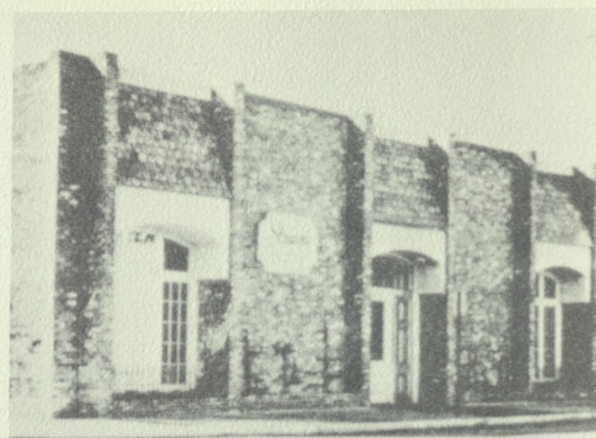

- ☐ **IDS NEW DIMENSIONS FUND.** A fund to provide growth possibilities. Normally the Fund will invest in common stocks of companies which appear to have a high degree of competence in technology.
- ☐ **IDS PROGRESSIVE FUND.** This mutual fund is dedicated to a single objective—capital appreciation possibilities primarily through common stocks.
- ☐ **INVESTORS STOCK FUND.** A mutual fund consisting primarily of common stocks designed to give you both long-term capital gain possibilities and reasonable income consistent with the capital gain objective.
- ☐ **INVESTORS VARIABLE PAYMENT FUND.** A fund emphasizing common stocks with the objective of giving you capital appreciation possibilities.
- ☐ **INVESTORS MUTUAL.** A balanced fund planned to provide a reasonable return, preserve your capital and secure long-term capital gain possibilities.
- ☐ **INVESTORS SELECTIVE FUND.** A mutual fund consisting of bonds and preferred stocks with the objective of giving you a reasonably stable quarterly income, while conserving the value of your investment.

*Except in a transfer from Investors Selective Fund to another fund within five months of the initial investment.

ELUSIVE MALADY DISCOVERED at U.A.M.C.

**Medical Breakthrough
Acclaimed**

The Biochemistry Department of the University of Arkansas School of Medicine announced today the discovery of a new disease. The discovery, which marked the culmination of years of scientific research, was termed a scientific breakthrough by Department Chairman Char-

les L. Watkins, affectionately called "Chuck" by his charges. Dr. Watkins said the findings would help medical students to "better describe the body as a machine (40 points)". The disease itself has no symptoms, is undiagnosable by conventional methods, and has no cure.

THE POPE

P.S. "Remember, only

What does a residency or internship in the Baptist System offer the UAMC graduate?

Plenty. The Baptist Medical Center System includes the 437-bed Baptist Medical Center in Central Little Rock, and the 148 bed Memorial Hospital, in North Little Rock. A new 500-bed Medical Complex is under construction in Western Little Rock.

Our internships are rotating types 0,1,3,5,6,7,8 with majors and/or electives available in surgery, medicine, radiology, pathology, psychiatry and anesthesia. There are residencies in Radiology, Pathology, and General Practice. (The latter, under the direction of Dr. John Tudor and his staff.)

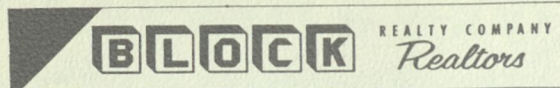

Residents from UAMC in Surgery and Ophthalmology, and ENT rotate here. The special care units for Coronary Care, Pulmonary Care, Intensive Care, Renal Dialysis and Emergency Care offer excellent educational opportunities.

What's more, you will be working with doctors skilled in their special areas of medical practice who know how to teach and who teach by precept the art of the physician-patient relationship. That's an important point to consider.

We'd like to tell you more about our programs. Contact Dr. W. G. Cooper, Jr., Director of Medical Education, 374-3351, Ext. 213, for more details or talk with our present house staff.

Dean, School of Medicine
University of Arkansas Medical Center
Little Rock, Arkansas

Dear Dean Shorey:

Dr. and I feel that the humor portrayed in the 1971 Caduces is not conducive to the fine work and doctors produced by our medical center. We do not feel free to leave this book out for our children or friends to view. For this reason, we have decided not to purchase a Caduces this year.

Sincerely,

The Caduces Heres Roster
